

About Cerena™ and Blue Note Therapeutics

Cerena™ is a prescription digital therapeutic program to aid the physical health of people with cancer.

Delivered by a mobile app, cerena provides resources to help you manage your physical health conveniently located on your smartphone or tablet, as a means to build resilience to stress and improve health outcomes.

Due to the ongoing COVID-19 public health emergency, the FDA recognizes that cancer patients are struggling now more than ever, and its recent enforcement guidance enables the program's immediate release. Cerena is only available by prescription. For more information about cerena, please visit www.cerenarx.com.

Blue Note Therapeutics is a prescription digital therapeutics company singularly dedicated to transforming mental health care for cancer patients. We aim to make mental health care available to any cancer patient at any time by merging deep scientific and clinical expertise, neuroscience, and digital innovation. Working closely with leading cancer centers, community oncology clinics, and teams of patients, Blue Note is developing clinically validated prescription digital therapeutics to help reduce anxiety, depression, and other distress related to cancer. For more information, visit us at www.bluenotetx.com.
